

SHOOTING MATCH EXTRAORDINARY.—The following account of a shooting in that vicinity is from the Charleston Mercury:

"An extraordinary match of bottle-smashing took place at Mt Pleasant on the 23d inst. Mr. King, backing himself to break ninety five wine bottles, (viz: the hard sherry or Madeira bottle) out of one hundred thrown up, and to be fairly broken in the air. Considerable speculation took place, and many heavy bets were against his doing it, and finally to ten against his hitting all, and finally to ten against his breaking ninety which was taken by himself. After smashing one as a trial, the match commenced; the first five double shots were loaded and fired by Mr. King in ten minutes, and ten bottles scattered into hundreds of pieces. He broke up all to the sixtieth bottle, which was hit but not broken; from the sixtieth to the one hundredth all were broken. Mr. King loaded himself, washed out his gun three times, and hit including the byshot one hundred and one bottles, broke one hundred in one hundred and one shots. Time—two hours and eight minutes."

APPLICATION OF THE TELEGRAPH TO PRIVATE BUSINESS.—Messrs. Hoe & Co., New York, have applied the telegraph to purposes connected with their business. They have in their countingroom one of Messrs. Magnien's Telegraph machines which communicates with their establishment, nearly two miles distant, in the Eastern part of the city. The machines which occupy but a small space, are regularly used by the proprietors and clerks with perfect ease. Information relative to the progress of orders, and questions on their business, are asked and answered with almost ordinary speaking rapidity. The two establishments are thus rendered as accessible to each other for conversation, as though both were under the same roof. The expense per week for magnetic power is said to be very trifling, and the alphabet used may be readily acquired by any person in a few days. The day will come probably, when the telegraph will be used in all large manufacturing, and perform the office of errand boys. For police purposes, in a large city, it seems indispensable.

LIVING IN BED FORTY YEARS.—Considerable above forty years ago, a yeoman of the neighborhood of Keighley, England, got entangled in the meshes of the tender passion, and suffered disappointment. Having taken to bed at that time, he has kept it ever since: neither threats nor entreaties ever induced him to leave it. His health is unimpaired; he eats well, is conscious of all that is going around him; and, enjoying a small competency, he resolves to end his days where he has gloriously immured himself for nearly half a century.

A PROBLEM FOR GEOLOGISTS.—Last week, John Mussey, Esq., had occasion to blast a large solid block of granite on his farm, on Cape Elizabeth, for the purpose of removing it. The boulder was without seam or crack or any appearance of one. On prying open one of the rifts, made by the blast, there was the body of a half grown boy, with his tongue thrust out of his mouth, as if forced out by the pressure. There was a cavity in the solid stone just the size, form, and capacity, to receive the boy's body, and from which it was taken.—Portland Argus.

Mexican Anarchy.—The brig Union brought intelligence to New Orleans.

Gen. Rea had been assassinated by a band of desperadoes. The Alcalde, Juan Estrada, had been previously assassinated by the same party. The authorities of Ayutla and of the State of Guerrero had taken the necessary measures to apprehend the ruffians, and to repress any further violence.

The diligence from Tien-deuro had twice been attacked and plundered near the city, by a party composed of nine men and four women. The mail from Puebla had just before been robbed in like manner.—Highway robbers had become so bold as to commit their depredations almost within the gates of the city—these depredations parties being often composed in part of women.

ELIGIBLE COMPLIMENT.—Sir Henry Bulwer, in his recent remarks at the anniversary dinner of the St. Andrew's Society, in New York, made a very happy allusion to Gen Scott. He said, "that if Waverley and Guy Mannering have made the name of Scott immortal on one side of the Atlantic, Cero Gordo and Tubusaco have equally immortalized it on the other. If the novelist has given the garb of truth to fiction, the warrior has given to truth the air of romance."

NOVEL IMPORTATION.—A correspondent of the London Times states, that on the 4th of Nov. ult., nine cases were imported into London in the steamboat City of Boulogne, containing 21,000 crucifixes of different sizes, from one inch to two feet, several thousand images of the Virgin Mary, and large quantities of prints of bleeding hearts &c., besides an immense number of rosaries and charms, probably in anticipation of a large conversion of our population to Romanism.

LEGISLATIVE CONVENTION.—This body has decided that the Legislature shall consist of a number "not exceeding fifty Senators and one hundred Representatives." Senators are to serve four years and Representatives two. As to the qualification of Senators and Representatives, they are to be citizens of the United States—inhabitants of the State for two years and of the District they represent one year—Senators to be 25 years old and Representatives 21.

A section has been reported, and discussed providing that Senators and Representatives shall be chosen by the people, and that the Legislature shall be composed of contiguous counties—that no county for senatorial or Representative purposes shall be divided—and that counties with two thirds of a Representative right, shall be entitled to a Representative. It was moved to strike out the prohibition against Counties being divided for Representative purposes, and to insert that Counties entitled to more than one Representative may elect them, if the Legislature so enact, by Single Districts, under general law. The section with the pending amendment, was then re-committed to the Legislative Committee.

ALLEGED OUTRAGE ON THE AMERICAN FLAG.—AN AMERICAN VESSEL CAPTURED BY A BRITISH CANNON.

The brig Boston, from Bahia, at Holmes Hole, 5th inst., brought as a passenger Captain John W. Disney, late master of brig Volusia, of Baltimore, which vessel, was captured as a slave on the coast of Africa, July 2, by H. B. M. steamer Rattlesnake, Commander Cummings. Capt D. complains that the vessel was unjustly captured, while engaged in lawful trade, the port of Victoria, South-west coast of Africa, sent to St. Helena and condemned.

It is said that Hartwig Von Blucher, a German patriot, has introduced a heated roller in Stettin, which being passed over the land, burns the weeds and furnishes in the ashes an excellent manure.

The Hon Richard H. Bayard, of Delaware has been nominated as Charge des Affaires to Brussels, and Professor Haddock has been nominated as Charge to Lisbon. Both nominations were referred to the Committee on Foreign Affairs.

COMMERCIAL.

Review of the Portsmouth Market, for the week ending, Dec. 16, 1850.

GENERAL REMARKS.—For the two weeks now ending, we have had an unpleasant time for our doersbusiness not often occurs. The river is now receding but is at good stage for boating at the time of writing this. The Pittsburgh steamers are now running regularly and the grade presents a business like aspect for the commencement of present week.

There is nothing specially new in commercial matters, a stringency in the money market is sensibly felt, which will continue until after January first.

The following quotations are given:

Flour and Grain.—Our last weeks review, left the flour market firm at prices then current, and on Tuesday last an advance of 10c was readily sustained. The price has since slightly advanced, and \$3.75 is now the average quotation. No change in wheat and no large transactions. In corn, there has been an active movement and nearly all the corn in our vicinity, both on Pike River and Canal, has been bought up at prices ranging from 25 to 35 cents per bushel. A heavy feeling is now perceptible.

SUGAR.—Prices have slightly given way for new sugar. We quote a fair price at 6 1/2c. New molasses 33c.

COTTON.—Same as last week, 12 1/2 per lb by sack.

CHEESE.—Sales of new cheese at 6 1/2.

WHISKY.—Another advance is noted—sales of rectified at 22c/23c.

SOAP AND CANDLES.—We quote candles at 9c/9 1/2 by box, and soap at 4c/4 1/2.

TOBACCO.—No decline is noted, 25 cents appears to be the lowest quotation for manufactured tobacco, and the ordinary 6 twist is nearly out of market on account of price.

PORK.—A sale of hogs at \$3.65 net is noted. Holders contend for \$4 but our reporter hears of no sales. The stock of old pork in Eastern cities is very large.

CINCINNATI MARKET.

CINCINNATI, Dec. 14, 8 P. M.

Hogs.—Market to day quiet and prices a shade easier, but the general tone was firmer than yesterday, there being fewer river hogs and not so many drove. Sales of 400 at \$3.95; 460, drove average 205 lbs, at \$4.10; and 600 averaging 200 at \$4.12. 130 averaging 150 at \$4.12.

Provisions.—Only sales to day were 500 lbs, and 100 lbs No. 1 Lard at 7 cents, and 1500 green hams at 6 1/2. There were other sales of hams at 6 1/2 and mess pork at \$10.50.

Flour and Grain.—A heavy feeling was observable in the flour market to day and few buyers at yesterday's currency. Sales comprised 400 bbls at \$3.15; 55 bbls at \$3.78 and 500 at \$3.75. In grain 200 bush Barley sold at 70c; and 250 bush oats in bulk at 40c.

Whisky.—Market better to day. Prices have advanced. Sales of 38 bbls at 24c; 10 do in cask at same, 98 fm wagon at 24 1/2; 159 at 23 1/2; and 70 fm river late this evening at 24c.

Sugar.—Demand continues active at 6c/6 1/2 for fair.

Molasses.—30c/31c.

Coffee.—11 1/2c/11 3/4c.

On the 5th inst, at the Harrison Hotel, in Burlington, William R. Jr., son of William R. Kerr Esq., formerly of Cincinnati.

Young Kerr had not yet attained seventeen years of age. He possessed extraordinary propinquity of intellect and was early placed at St. Timothy's college, near Baltimore, Md. So great was his avidity for knowledge, that in the short space of a few years he soon learned to read Latin, Greek and French with accuracy and ease, and had also become acquainted with the higher mathematics. After leaving school, he did not abandon his studies, but continued to study and to read whatever was instructive. Indeed, it may be said that, for one of his years, he was thoroughly imbued with ancient and modern learning. He was cheerful, yet his mind had a thoughtful cast, and his conversation had an air of sincerity and earnestness that often attracted the attention of strangers, and which commanded the respect and admiration of all who knew him. But he has gone in the morning of his life, leaving a father and two sisters to mourn his loss.

Look here, my Friend!

Stop, and let us Reason Together.

Are you a Father, laboring for the support of a family, and suffering from general debility and low spirits, so that life almost seems a burden, use Dr. S. D. HOWE'S SHAKER SASSAPARILLA.

ARE YOU A MOTHER, suffering from disease to which females are generally subject, use Dr. S. D. HOWE'S SHAKER SASSAPARILLA—it will certainly cure you.

Male or female, old or young, ALL kinds of RHEUMATISM, should have this excellent FAMILY MEDICINE by them. Call at our depot, or on one of our Agents, and get a pamphlet, gratis, where you will find

Facts! Facts!! Facts!!!

That can be substantiated by thousands of living witnesses in this city and country, viz: that the

Shaker Sarsaparilla,

As prepared by Dr. S. D. HOWE, has been the means of permanently curing more diseases than the human family are continually subject to, than any other preparation of Sarsaparilla ever yet brought before the public.

The purity and efficacy of the Shaker preparation is well known and requires no long list of certificates and cures to introduce it; its increased demand for the past twelve years, is its best recommendation.

This medicine has established its high reputation throughout New York and New Hampshire, and the eastern States generally, by its numerous and well attested cures; and also by the recommendation and approval of the first physicians, who now use it in their private practices.

It is the only Sarsaparilla that acts on the Liver, Kidneys and blood at the same time, which renders it altogether more valuable to every one, particularly Females.

Dr. Mussey, Professor in the Ohio Medical College, says the Shaker preparations are truly valuable, and recommends them to the public.

NO MERCURY—NO MINERAL—NO POISONOUS DRUGS IN THE SHAKER SASSAPARILLA.

REMEMBER,

It is warranted to be purely and ENTIRELY VEGETABLE.

And as a Female and Family medicine it has no equal.

Be sure that you inquire for Dr. S. D. Howe's Shaker Sarsaparilla, and take no other.

Corn for Sale.

THE subscriber will sell and deliver in the City of New York, and Scitoto or Ohio River, or the Potomac, any Quantity of good Merchantable Corn at the lowest market prices. His facilities for delivering corn are such that he can fill orders, entrusted to him, better than any other person in this market.

IN QUART BOTTLES.

For Purifying the Blood, and for the Cure of Scrofula, Mercurial Diseases, Rheumatism, Catarrhus Eruptions, Stomach Ulcers, Liver Complaint, Dyspepsia, Bronchitis, Salt Rheum, Consumption, Fever Sore, Female Complaints, Erysipelas, Loss of Appetite, Pimples, Biles, General Debility, &c.

THIS preparation has now borne the test of over 14 years experience, since its first introduction to public favor, during which time numerous imitations have sprung into existence, founding their claims to the confidence of the community on the curative powers contained in Sarsaparilla root, the great reputation and extended use of which has been mainly attributable to the many wonderful cures effected by the use of this preparation.

While Sarsaparilla Root forms an important part of its combination, it is, at the same time, compounded with other vegetable remedies of great power, and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. Other preparations imitate it in the style of putting great benefit from the name of its ingredients, and here endow their resemblance to it. Those needing a remedy and purifier like this, are requested to note where this difference exists, and in making choice of what they will use, not to take any other but that one entitled to their confidence, from the long list of cures it has effected on living witnesses, whose testimonials and residences have been published, and who are still bearing testimony to its worth.

The whole history of medicine has scarcely furnished a parallel to the numerous and remarkable cures effected by its use, and what it has effected once it can effect again.

FROM KENTUCKY.

Inflammatory Rheumatism Cured.

Barnstons, Ky., July 10, 1849.

Messrs. SANS.—Gentlemen: It is my duty to communicate to you in relation to the beneficial effects of your Sarsaparilla. My wife was afflicted with inflammation and soreness of the stomach of the worst character; her limbs and chest were much swollen; she had constant headache, and last spring was attacked severely with inflammatory rheumatism. The best medical aid we could obtain afforded only momentary relief; and while in this malady, she heard of the many remarkable cures effected by the use of Sarsaparilla, and commenced its use, which produced instant relief, and less than six bottles entirely removed all the dropsical swelling and every other inflammatory symptom, restoring her to perfect health. I send this statement as an act of justice; believing it to be entirely true, and encouraging the suffering portion of the human family to use Sarsaparilla, which I believe has no parallel in the catalogue of medicine. With feelings of lasting gratitude, I remain, your friend.

SAMUEL A. HARGER.

Read the following from

NEW ORLEANS, Nov. 12, 1849.

Messrs. SANS.—Gentlemen: I take the liberty of sending you a letter which may be of importance to those who are suffering as I have done. I received great benefit from your Sarsaparilla, having been cured of a malady after suffering six years. I hereby cheerfully certify to the good effect of your medicine, and I hope God will reward you for all the good you have done. A chronic cough had tormented me day and night, and repeated attacks of fever induced me to believe that I should die with consumption. One day while suffering a violent attack of burning fever, a friend persuaded me to try your Sarsaparilla medicine, but to tell the truth, I had no confidence in it. I finally purchased a bottle, and by its use and the help of God, I was restored to better health than I had enjoyed for six years. I cannot but bless the author of this admirable medicine.

With great respect, I am, gentlemen, Your obedient servant, FERMIN GROUPAZ.

TRUTH IS STRANGER THAN FICTION.

NEW DUNHAM, N. Y., June 30, 1849.

Messrs. SANS.—Gentlemen: My wife suffered with a distress and burning in her chest for many years, and my daughter was afflicted from her birth with a humor in her blood. We consulted various physicians, and tried numerous remedies, without much benefit, until we heard, through Rev. Thomas Davis, of the great medicinal value of Sarsaparilla.

On his recommendation my wife immediately decided on trying it, and soon experienced permanent benefit. My daughter's skin assumed a new appearance entirely; from being rough, hard, and scaly, it became smooth and soft. My wife's sufferings are almost gone, and its use a short time longer, it is my firm belief, will produce a perfect cure.

Yours, with respect, G. S. HENDRICKSON.

THE undersigned having associated themselves together under the name and style of

R. BELL & CO.,

for the purpose of prosecuting the Boot and Shoe manufacturing business in all its various branches, would respectfully inform the citizens of Portsmouth, and the public generally, that they have commenced operating in the brick block two doors south of Messrs. Davis, Smith & Co., on Market street, at which place they intend keeping on hand every variety of Boots, Slippers and Gaiters of their own manufacture at

Wholesale and Retail.

To FURNACE MEN and DEALERS; we can furnish Boots at such prices as will make it their interest, at purchase at home, and can furnish them just such sizes, kinds and quantities as may be best adapted to their wants, and of such we solicit an examination of our Stock. We believe with many others, that no good cause exists to prevent successful

facturing in the west, and with a view of extending its practicability, we have embarked in this enterprise, hoping to succeed, not only in benefiting ourselves, but to contribute in a proportionate degree to the benefit of others.

We will supply customers with our own work at retail at the lowest possible prices, made to order, of whatever material they may desire, and will give particular and prompt attention to orders at home and from abroad.

We are also receiving a full assortment of

Eastern Work,

comprising the different varieties of style usually kept in this market, to which we invite the particular attention of purchasers, as all our stock has been purchased direct from Manufacturers for CASH, and will be sold at very low rates.

To Manufacturers we offer the choicest Rip, Calf, Kid, Morocco, Lining and Binding Skins, together with Sole and Upper Leather, and a general assortment of Shoe-makers Kit and Findings. Suffice it to say that we expect to keep constantly on hand a full supply of

ROOTS, SHOES AND LEATHER

of all descriptions, which will be offered to dealers and consumers at such rates as cannot fail to meet the views of the lowest buyers, and we will spare no pains to please all who favor us with a call.

We pledge ourselves to FAIR TRADE and SMALL PROFITS, and all we ask is a fair trial, and such a share of patronage as the quality of goods, low prices and a disposition to accommodate may entitle us.
